Accessing Your MyLabsPlus (MLP) Course through Brightspace (D2L)

This course uses the MyLabs system to deliver homework and assessment activities. This document goes over the steps to access the MyLabs system.

In order to access MyLabs, you will need an "Access Code". If you have already purchased one through Follett, use these instructions to access the course instead of what is printed on the packaging. If you accidentally use your purchased code for the wrong course, contact your instructor.

If you run into any technical issues or problems with your access code, you may contact Pearson's MyLabsPlus support at: 1-888-883-1299.

On the course homepage you will find the link to MyLabsPlus

Click on the MyLabsPlus logo to enter the system.

First page in MyLabsPlus - User Agreement

Scroll down to bottom of the page and click, "I Accept".
Enter your access code

If you have purchased an access code, you may enter it by clicking on that item. You may also purchase an access code directly from Pearson, or request a two-week temporary access code with the "Pay Later" option. Keep in mind that the Follett-purchased access code will only work for your UWC Online course and only one course. If you mistakenly use the code for the wrong course, contact your instructor.

Choosing "Pay Later" Option

You may request a two-week access code while waiting to purchase your code. When you do this, the system will provide you with an expiration date. Any homework completed during this time will be saved, but you will still need to enter an access code to get to it after the expiration date.
The Confirmation Page

Depending on what option you chose earlier, you will see a confirmation page. Click on the "Return to Course" button to enter the MyLabs course.

The MLP Course Homepage

You will now see your course's homepage. Depending on your course and your instructor, you will see the term’s dates displayed here. The eText is found in the Chapter Contents area.
Access the Course's eText

The eText allows you to view, print, highlight, and note each page.
